Newdeallightingandgrip.com

Owner and operator of New Deal Lighting And Grip, LLC

My career in grip and electric began 20+ years ago and since then I've been fortunate enough to have accumulated over eighteen hundred combined credits. Currently in my career my focus is on the commercial world in all its various forms. Whether it's corporate, hospital, political, documentary or anything in between, I believe a positive friendly attitude and a "find a way or make a way" approach to problem solving is the key to being a valuable member of any production team.
